

## **Chainsaw Kit List and Information**

You will need to provide your own personal protective equipment (PPE) as there are no items for loan

All safety equipment must carry the appropriate CE marking.  
Recommend equipment required for the training and assessment

### **The Chainsaw**

- Maximum recommended guide bar length 380mm (15")
- Must meet current Health and Safety Regulations
- Chain must be in good condition – with no missing parts.
- To allow for a realistic demonstration of maintenance and correct sharpening procedure, chain requiring sharpening should be used for assessment of unit 002003.
- Cutters must be of sufficient length to allow for sharpening
- Fuel/Oil Mix
- Chain oil
- Grease and grease gun if required

### **Maintenance Tools**

- Combination spanner
- Guide bar cleaner
- Round file for cutter sharpening
- File guide (roller or other)
- Flat file
- Depth gauge setting tool
- Clean brush for air filter
- One other brush/rags for cleaning the machine
- Product information and operator's manual

### **Personal Protective Equipment**

(this is essential equipment and you will not be allowed to participate on the course without them)

- Chainsaw Boots
- Chainsaw Trousers (no damage to blocking material) These should bear the chainsaw logo and show the chain speed to which they have been tested
- Gloves appropriate for the task
- Helmet, with suitable eye and ear protection
- Personal First Aid Kit - (to include large wound dressing with

- integral bandaging)
- None snag outer clothing
- Whistle

**Also required:**

- Felling bar – must have a hook for turning a tree
- Felling wedge
- Lifting tongs/hooks
